The Honorable

Senator Harris Wofford

Dear

Senator,

I am active in our local club of 50 members. Our Club is growing and I am an active instructor for radio controlled model airplanes. I have been interested in aviation for as long as I can remember. I am very active in promoting my club whose members enjoy construction and operating radio controlled model airplanes.

I am very concerned about proposed rules that are currently under consideration by the Federal Communications Commission (FCC). The proceeding is PR Docket 92-235.
